W. R. HOGSHIRE & CO.

[Extract from a Letter on the Battle-Field.]

. This battle (Antietam) has been the most sanguinary of the war, and the only one fought with visible design and upon military principles. The arrangement of our corps-the overlooking position of the commanding General-the sending into action the right and left divisions-the closing up of the center--and finally success, excites bewildering admiration, and carries the mind to the great fields of Austerlitz and Wag ram, fought by Napoleon. Of all this have I spoken. The heart history of such a conflict purchased by the lives and blood of twenty thousand men, must be found in the hospitals. War has its glories, but it has its ten thousand demons in these human tortures, that make the eye-balls ache, the heart bleed, the lips palsy, and the brain reel. The sight is at first positively unea durable. The life blood of some is still trickling away in silent calmness, while the dissevered limbs and maniac brain of others give rise to

sounds God grant I may not again witness. But, ye mothers who here seek a son, or wives a husband, or sisters a brother, or sons a father, know and be consoled that even here the hand of mercy is watchful, and better care is bestowed upon your loved ones than might at first seem possible. It was in the hospital where rested the gallant Hooker that I learned the history of those mythical words, so often seen and so little understood, "S. T -- 1860 -- X." Anything alleviating the sufferings and saving the lives of our soldiers is a national blessing. I witnessed some aston ishing results from this article.

It is well known the effect of burnt gunpow der and excitement is thirst, which, added to the loss of blood in the wounded, creates the necessity of a reviving stimulant. In this particular hospital the physicians allowed their patients to drink Plantation Bitters, otherwise called S. T .- 1860 -X, and although the wounded are most numerous here—this division having opened the fight at 5 in the morning-the men were mostly composed, and there was very little fainting. The article acts upon the stomach and the nerves in a most incomprehensible manner, superior to brandy, and without subsequent stupelying reaction. It originated in the West Indies, composed of the celebrated Calisaya Bark, Roots, Herbs, &c., all preserved in St. Croix Rum, the S. T .- 1860-X being a secret ingredient, not yet revealed to the public. It is principally recommended for want of appetite, disordered liver, intermittent fevers, stomachic difficulties, &c. I understand it was somewhat known in the Southern States previous to the war, and it appears an agent of Jefferson Davis recently applied to the proprietors for the privilege to make it for hospital purposes during the war, to

which they made the following reply:

NEW YORK, Jan. 16, 1862. Mr. - Agent of, Se .: Dear Sir-In reply to your communication offering "fifty thousand dollars for the recipe and right to make the Plantation Bitters for your hospital purposes during the war," we beg to say your price is a liberal one, considering it would cost us nothing to comply, and that otherwise we can derive no revenue from the Southern States: but, sir, our duties to our Government and our ideas of consistency would not allow us to entertain it, although it might please us to assuage

the sufferings of your misguided followers.

We remain, very respectfully, yours, P. H. DRAKE & Co. These gentlemen give the history of certain ingredients of their article for over two hundred years-showing that, through all changes of the medical profession and its practitioners, strength, composure and cheerfulness have been derived from these sources. Dr Woods, in the Wash ngton hospitals, informed me that one patient was fast sinking and crazy, and had not slept an hour for two weeks, until the Plantation Bitters came to his knowledge, when one day's trial gave him a night's rest, and he was now fast recovering. I am surprised our Government has not equaled Jefferson Davis in energy, and adopted this invaluable article in all our hospitals. The weak soldiers cling to it like a brother. As a lay member. I can bear witness that it is "good to take," and affords more energy and life than anything I ever tried. Success to the Plantation
